Summary

I have a Diploma in Full Stack Development and advanced frontend. I have a portfolio of more than five projects to demonstrate these skills. I attended four hackathons where I had to build an application with a team in a span of five days. Additionally, I have been working in the Life Science industry for four years, which has given me excellent problem-solving skills and ultimately led me to the path of software development!

Education

Code Institute	2022 – 2023
